

AMERICA WALKS

Making America a Great Place to Walk

May 22, 2015

The Honorable Anthony Foxx
Secretary of Transportation
U.S. Department of Transportation
1200 New Jersey Ave, SE
Washington, D.C. 20590

Dear Mr. Secretary:

As Executive Director of America Walks, I am writing in support of the Yellowstone National Park South Pedestrian Trail project application submitted by Park County that would fund the extension of an existing and heavily utilized trail system within the County, creating a comprehensive bike/pedestrian trail system connecting to existing routes. This proposed project would provide local citizens and national visitors with a safe and physical activity option for accessing one of our greatest National Parks.

America Walks, is a national nonprofit organization that is leading the way in making America a great place to walk. We provide a voice for walking and walkable communities with federal agencies, work to cultivate state and local organizations and campaigns by providing strategy support, training and technical assistance and serve as the convener of the national Every Body Walk! Collaborative. Together, America Walks and the Every Body Walk! Collaborative boast 700 allied organizations that across the nation are working to increase walking and make America a great place to walk.

America Walks was pleased to see Park County serve as a leader in the charge to make our national parks walkable and I hope you will consider this proposal favorably. Please feel free to contact my office if I can provide any additional information.

Sincerely,

Scott Bricker
Executive Director
