

Application for Every Body Walk! Micro Grants

Due to the decades of engineering dominated by the needs of the automobile, most communities do not lend themselves to safe, convenient, accessible and routine walking. Reversing past designs and creating the conditions for safe, inclusive and routine walking is complex, requires collaboration across a variety of disciplines and city departments and takes time. To make and keep walking and walkability a priority in neighborhoods and communities, we need a strong, connected group of local activist and dedicated organizations. America Walks and the Every Body! Walk Collaborative is working to support and grow these advocates.

Eligible micro grant activities fall into two broad categories:

1. Focus on strengthening or elevating community-walking programs, and
2. Fortifying the policies, systems and environments that create walkable places.
