PUSHING BUTTON IS NOT REQUIRED.

The walk signal will turn on automatically.

Wait for walk signal before crossing.
A good reminder that streets are closed to through traffic all the time in Durham. So why can’t the City do that to make streets safer, particularly in a time when many more people are waking or biking in them?

CityofDurhamNC @CityofDurhamNC · May 8

A section of Alpine Rd. between Hope Valley Rd. & Dixon Rd. in #Durham will be closed to through traffic for 8 weeks beginning May 11 due to a compromised @DurhamStormH2O culvert. Get more construction project details here: durhamnc.gov/3960
MUTCD, Section 6: Temporary Traffic Controls (TTCs)

• “When the normal function of the roadway, or a private road open to public travel, is suspended, TTC planning provides for continuity of the movement of motor vehicle, bicycle, and pedestrian traffic (including accessible passage); transit operations; and access (and accessibility) to property and utilities.”
More substantial barriers to delineate space and protect vulnerable road users from higher speeds and volumes from vehicles.

Cones or simple barricades

Separation of bike lanes or shared use paths based on volume and speed.
